AMENDMENT

Sir:

Please amend the application as follows.

IN THE CLAIMS

1 35. A method for deriving object ids for data in a table that is managed by a database
2 server and is defined by a table definition, comprising:
3 maintaining, separate from the table definition, metadata that indicates how to
4 derive object ids from values stored in the table; and
5 the database server deriving object ids for the data in the table based on the
6 metadata.

1 36. The method of Claim 35, further comprising the step of generating,
2 based on a particular object id of said object ids, an object reference.
